Week1:

Goals: Have a complete and logical UML diagram in accordance with project specifications.

Meeting 1: 45 Mins, both members were present. Reviewed, discussed, and researched the project requirements. Briefly discussed the best possible UML structure.

Meeting 2: 1.5 Hrs, both team members were present Looked at project requirements and specs more in depth. Drafted possible UML diagrams and possiblities. Honed down to a "final" UML diagram and reviewed it.

Upcoming Goals: Fine tune UML diagram according to professor specifications and begin implementation.
